Investigation 15-08-019  
(Filed August 27, 2015)

**MOTION OF EMF SAFETY NETWORK FOR PARTY STATUS**

Pursuant to Rule 1.4 of the California Public Utilities Commission (CPUC) Rules of Practice and Procedure, EMF Safety Network, (Network) requests party status in the Order Instituting Investigation on the Commission's Own Motion to Determine Whether Pacific Gas and Electric Company and PG&E Corporation's Organizational Culture and Governance Prioritize Safety.

Rule 1.4(b) requires that a person seeking party status shall disclose the persons or entities in whose behalf the motion for party status is made, and the interest of such persons or entities in the proceeding. Network is a group authorized pursuant to its articles of organization and bylaws to represent and advocate the interests of residential and small commercial customers of electrical, gas, water, and telephone utilities in California. Network has an interest in delivery of safe and reliable utility service.

Network has actively participated in four CPUC proceedings since 2010: A.10-04-018, A.11-03-014 phase one, A 11-03-014 phase two, and I. 12-04-010. Network has great concerns with the safety and reliability of PGE's utility infrastructure and overall management. Network intends that it will participate actively in this matter. Based on the above information, Network requests that the Commission grant party status to Network.

Dated: February 5, 2019 at Sebastopol, California.
